

Respiratory Syncytial Virus (RSV) Antigen Rapid Test Kit (Colloidal Gold Method)

Respiratory Syncytial Virus (RSV) Antigen Rapid Test Kit (Colloidal Gold Method) is a rapid chromatographic immunoassay assay designed for qualitative detection of RSV antigen in human nasopharyngeal and oropharyngeal samples to help diagnose RSV infection. This method is easy to operate, and the result can be obtained by observing whether there is a red and purple strip in 15-20 minutes. Simple operation steps. It is intended to be used as a screening test and provides a preliminary test result to aid in the diagnosis of infection with rotavirus and adenovirus.
